## PROFILE

My name is Oláh Gergő-Balázs and I am a 21-year-old individual with a passion for front-end development and web design. As a recent graduate with a strong educational foundation in text and image processing, I am excited to explore new opportunities and challenges in the IT industry. I hold a baccalaureate diploma and a professional license in technical operation of text and image processing, which has given me the skills and knowledge necessary to excel in my chosen career.

## EDUCATION

### Technical operator of text/image processing at Báthory István High School, Cluj-Napoca

2016 — 2020

I received my education at Báthory István High School, where I not only completed the standard baccalaureate curriculum but also learned about photo editing, text and image processing, publication design, and operating industrial printers. I was fortunate to have the opportunity to put my theoretical knowledge into practice at [Rottaprint](#), which allowed me to gain valuable hands-on experience in these fields. I am grateful for the comprehensive education I received at Báthory István High School, as it has prepared me for a successful career as a technical operator in the text and image processing industry.

### Management at Faculty of Economics and Business Administration, Babeş-Bolyai University, Cluj-Napoca

2020

I received my education at the Faculty of Economics and Business Administration at Babeş-Bolyai University, where I was originally pursuing a degree in Management. However, I have since decided to shift my focus away from management roles and towards other areas of interest. Despite not completing my degree, I believe that the education I received, has given me a solid foundation to build upon as I explore new career opportunities.

## HOBBIES

- leader of the Hungarian Baptist College Youth Group in Cluj-Napoca
- drummer in Névtelen Band ([facebook.com/nevtelenband](https://facebook.com/nevtelenband))
- playing guitar
